Figure 1 is a line graph titled "Number of cases of COVID-19 in the Republic of Serbia". The vertical axis (Y-axis) is labeled "Number of cases" and ranges from 0 to 10,000 in increments of 2,000. The horizontal axis (X-axis) is labeled "Time" and shows dates from March 1, 2020, to May 1, 2020, with major ticks every 10 days. The graph shows a sharp increase in cases starting in late March, peaking around April 15 at approximately 10,000 cases, and then declining towards May 1.
