Figure 1 is a line graph titled "Number of cases of COVID-19 in the Republic of Serbia". The vertical axis (Y-axis) is labeled "Number of cases" and ranges from 0 to 1000 in increments of 100. The horizontal axis (X-axis) is labeled "Time" and shows dates from March 1, 2020, to May 1, 2020, with major ticks every 10 days. The graph shows a sharp increase in cases starting around March 15, peaking at approximately 900 cases around March 25, followed by a decline and then a second, smaller peak around April 10, before a final decline towards May 1.
