Figure 1 is a diagram illustrating the relationship between the number of nodes (1 to 5) and the number of edges (0 to 10) for a tree structure. The diagram shows a grid of points connected by lines, representing the possible configurations of a tree with a given number of nodes. The vertical axis is labeled 1, 2, 3, 4, 5, and the horizontal axis is labeled 0, 1, 2, 3, 4, 5, 6, 7, 8, 9, 10. The connections are as follows: (1,0) to (1,1), (1,1) to (2,1), (2,1) to (2,2), (2,2) to (3,2), (3,2) to (3,3), (3,3) to (4,3), (4,3) to (4,4), (4,4) to (5,4), (5,4) to (6,4), (6,4) to (7,4), (7,4) to (8,4), (8,4) to (9,4), (9,4) to (10,4), (1,0) to (2,0), (2,0) to (3,0), (3,0) to (4,0), (4,0) to (5,0), (5,0) to (6,0), (6,0) to (7,0), (7,0) to (8,0), (8,0) to (9,0), (9,0) to (10,0), (1,1) to (2,1), (2,1) to (3,1), (3,1) to (4,1), (4,1) to (5,1), (5,1) to (6,1), (6,1) to (7,1), (7,1) to (8,1), (8,1) to (9,1), (9,1) to (10,1), (2,2) to (3,2), (3,2) to (4,2), (4,2) to (5,2), (5,2) to (6,2), (6,2) to (7,2), (7,2) to (8,2), (8,2) to (9,2), (9,2) to (10,2), (3,3) to (4,3), (4,3) to (5,3), (5,3) to (6,3), (6,3) to (7,3), (7,3) to (8,3), (8,3) to (9,3), (9,3) to (10,3), (4,4) to (5,4), (5,4) to (6,4), (6,4) to (7,4), (7,4) to (8,4), (8,4) to (9,4), (9,4) to (10,4).
