Figure 1 is a line graph titled "Number of cases of COVID-19 in the Republic of Serbia". The vertical axis (y-axis) is labeled "Number of cases" and ranges from 0 to 1000 in increments of 100. The horizontal axis (x-axis) is labeled "Time" and shows dates from March 1, 2020, to May 1, 2020, with major ticks for March 1, April 1, and May 1. The graph shows a sharp increase in cases starting in late March, peaking around April 15 at approximately 900 cases, and then declining to near zero by May 1.
